

HANGING AROUND AT SCHOOL IS GOOD FOR KIDS.

The longer children stay in school, the better their chances of leading productive, happy lives. It's that simple. At the Ardoch Youth Foundation, that's what we encourage them to do, by working with them. Engaging with them. Encouraging them.

It can make a huge difference to their futures.

But resources are scarce. We need your help. Please contact us if you think you can help, either financially or as a volunteer.

Making education a reality
